Before the court is a report of the magistrate judge (doc. 13) to whom this matter was referred in which he recommends that ground one of the petition for writ of habeas corpus filed pursuant to 28 U.S.C. § 2254 be dismissed for failure to exhaust the issue in state court. The magistrate judge also found that Petitioner had exhausted in state court the other three grounds stated in his petition and recommends that these three grounds be remanded to him for further proceedings. Petitioner has filed objections to the report and recommendation.

Ground one of Petitioner's habeas claim is that the Supreme Court of Pennsylvania erred by denying relief on his claim that a *Brady* violation occurred when the prosecution withheld the existence of a plea agreement of a witness in exchange for favorable testimony from that witness. (Doc. 1, at p. 6.) The magistrate judge found that this issue was not raised in Petitioner's direct appeal and that Petitioner knew of this issue prior to taking his direct appeal. (*See* Doc. 11, Ex. A for issues raised on direct appeal.) Petitioner objects to this finding by the magistrate judge and asserts that he raised this issue in his subsequent appeals.

The failure to raise an issue on direct appeal that could have been raised, constitutes a procedural default. Petitioner has not responded to this specific finding by the magistrate judge; therefore, the report and recommendation will be adopted. An appropriate order will be issued.
